ENGINE HIGHLIGHTS OF NEW BMW M4 WITH M xDRIVE.

M4 COMPETITION WITH M xDRIVE

BMW M TwinPower Turbo 6-cylinder petrol engine
with 375 kW (510 hp) and 650 Nm torque
Acceleration: 3.5 s
Fuel consumption: 9.76 km/l
CO₂ emissions: 227-229 g/km

□ **The M Driver's Package³** increases the top speed to 290 km/h. The M Driver's Package can be ordered when purchasing a new vehicle or can be added on at a later date. All other technical data remain unchanged once installed. A voucher for a one-day BMW M race track training course from BMW Driving Experience is also included.

■ **The M Sport exhaust system** delivers a dynamic sound that can be modified via the integrated exhaust valve mechanism. The SPORT and SPORT+ programmes, which can be selected via the SETUP button, are accentuated by an even more intense engine sound, while the comfort-oriented programme prioritises more discreet engine acoustics.

□ **The M Race Track package** makes the vehicle an uncompromising driver's car for experts. M Carbon ceramic brake, M Carbon bucket seats and M forged wheels reduce weight by up to 25 kg. M Drive Professional, the M Driver's Package and the BMW Head-up display allow perfect control of the increased performance.

The figures for performance, fuel consumption and carbon dioxide emissions refer to vehicles with standard transmission.

¹ Electronically limited.

² The official data for fuel consumption and carbon dioxide emissions was determined in accordance with the measuring procedures as defined by European Regulation

(EU) 715/2007 in the applicable version. The ranges take into account differences in the selected wheel and tyre size. Figures have been determined on the basis of the new WLTP test cycle and have been converted back into NEDC figures for comparability. Values other than those specified here may apply for the assessment of taxes and other vehicle-related charges that are (also) based on CO₂ emissions.

³ The raised top speed is only available after the first service following the 2,000 km run-in period.

⁴ Provisional figures; any missing figures were unavailable at the time of publication.

Further information on fuel consumption and CO₂ emissions can be found in technical data.

*The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at www.bmw.com or at your BMW Partner.

■ Standard equipment □ Optional equipment

ADAPTIVE M SUSPENSION

■ The Adaptive M suspension makes it possible to adjust the damper characteristics to suit any given driving situation, increasing driving dynamics and comfort. In addition to the standard COMFORT setting for increased driving comfort, the SPORT programme offers firmer damper settings, and with SPORT+, the vehicle can be used on the race track.

M SPORT DIFFERENTIAL

■ The Active M Differential optimises traction and driving stability when changing lanes or accelerating out of curves, when making curves at high speeds or on roads with uneven surfaces. Traction is optimised with the help of an electronically operated device that reduces the difference in revolution speed between the rear wheels.

STEPTRONIC SPORT TRANSMISSION

■ The 8-speed M Steptronic Sport transmission² * with Drivelogic offers numerous shifting options: extremely dynamic, particularly comfortable and smooth, fuel-saving. You can shift manually using the gear lever or the gearshift paddles on the steering wheel, or select one of three automatic programmes using Drivelogic.

M xDRIVE

■ With BMW M xDrive² and Active M Differential, drivers can experience intensive athletic performance – during everyday driving, as well as at the racetrack. The M specific technology smoothly distributes the drive power variably between the front and rear axle, so that the vehicle reacts with extreme precision and stability, even during dynamic driving and inclement weather conditions, ultimately providing better control. Even the basic settings, with Dynamic Stability Control (DSC) and 4WD turned on, the M characteristic agility is appreciable. With M dynamic mode and 4WD Sport, agility is significantly increased. With DSC off you can choose between

the drive settings 4WD, 4WD Sport and 2WD, depending on personal preference and road conditions. In 2WD mode, ambitious sport drivers get their full money's worth because the drive is distributed only to the rear axle. Only the Active M Differential is in play, variably distributing the drive power between the rear wheels as the situation requires in order to ensure optimal traction and driving stability. All in all, M xDrive heightens the vehicle's driving dynamic qualities, optimises its handling characteristics and makes it easier to control so that you can enjoy the performance even more intensively.

² Standard for BMW M4 Competition M xDrive.

* The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at www.bmw.com or at your BMW Partner.

CONNECTIVITY AND INFOTAINMENT.

BMW ConnectedDrive
So connected, you're free.

BMW OPERATING SYSTEM 7

■ The innovative operating concept of the BMW Operating System 7 enables even easier operation of vehicle functions via e.g. speech, touch screen and iDrive control – very intuitively. For this purpose, the functionality of the Controller has been upgraded. So now the apps menu can be selected directly.

BMW GESTURE CONTROL

□ With BMW Gesture Control*, certain functions can be operated by means of defined hand movements. For certain operations the system will for example recognise gestures such as 'swiping' or 'pointing' for accepting or rejecting an incoming call, or circular motions of the index finger to adjust volume.

SMARTPHONE INTEGRATION

■ Why go without the features of your smartphone in your BMW when you can continue operating it as usual? With smartphone integration², your vehicle supports Apple CarPlay and Android Auto by means of a wireless connection between your smartphone and the vehicle. This allows you to conveniently use familiar functions and various apps in the vehicle.

² Smartphone Integration is permanently available in the vehicle. It includes Apple CarPlay and Android Auto. Android Auto linking is only possible in conjunction with a BMW Live Cockpit. Due to possible future technical developments (e.g. of mobile

phones), the usability of the Apple CarPlay or Google Android Auto service cannot be guaranteed permanently. CarPlay is a trademark of Apple Inc. Android Auto is a trademark of Google LLC.

DRIVER ASSISTANCE.

■ Standard equipment □ Optional equipment

□ The **Parking Assistant Plus** makes parking and manoeuvring the vehicle easier. It features among others the Surround View system including Top View, Panorama View, Remote 3D View, as well as a lateral parking aid, the emergency braking function Active Park Distance Control, Parking Assistant with longitudinal and lateral guidance and Reversing Assistant.

□ **Evasion Assistant*** supports you during manoeuvres to evade stationary or moving vehicles, cyclists or pedestrians. If a collision is imminent, the possible free space for an evasion manoeuvre is analysed and the steering assistance and the agilisation of the suspension are used to prevent the collision.

□ The **Lane Keeping Assistant*** with active side collision protection supports you up to a speed of 210 km/h with small corrective steering interventions, when the vehicle threatens to leave the lane or to avoid collisions with vehicles on either side. The assistant increases comfort and safety, especially during monotonous driving situations.

□ The **junction warning with brake intervention*** detects traffic lights, traffic signs and vehicles crossing and can avoid accidents. If a collision cannot be avoided, the system helps to reduce the impact speed.

□ **Front collision warning with brake intervention*** actively assists you with the prevention of collisions involving pedestrians and cyclists. It is active at speeds of up to 65 km/h and preconditions the brakes for increased responsiveness. In the event of an emergency, the system prevents a collision or ensures that the collision speed is reduced considerably.

□ The **front crossing traffic warning*** warns you of crossing traffic when entering intersecting crossing traffic in unwieldy places. The system works up to a speed of 7 km/h and can be activated and deactivated via the "Park" setting menu.

*The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at www.bmw.com or at your BMW Partner.

■ Standard equipment □ Optional equipment

Absolute willingness to perform is written all over the new BMW M4 Competition Coupé. The High Gloss Black accents of the BMW Individual high-gloss Shadowline exterior trim with extended features increase the visual intensity of the solid paint finish in Soo Paulo Yellow. Large air inlets cover the high cooling requirements of the high-performance units. Particularly in combination with the M Carbon exterior package, they reinforce the racing character of the new BMW M4 Competition Coupé with their clear paint finish.

The visible fibre structure of the exclusive M carbon roof and M rear spoiler visually stages the elaborate, weight-reduced design.

■ The athletic interior equipment is defined by the classic M driver orientation and perfectly crafted materials. The steering wheel covers and shift paddles of the M leather steering wheel are made of lightweight carbon fibre, as are the M interior trim finishers. The concise M4 Competition inscription indicates the special position of the model.

■ The multi-adjustable M Sport seats with bucket seat character and partly integrated headrest provide excellent lateral support for you and your front passenger. In addition, the backrest width can be individually adjusted. Their special design with illuminated M4 logo highlights the vehicle's athletic capabilities.

■ Door sill finishers with the "M4 Competition" designation in the front on the left and right.

■ In laser high-beam mode, the Adaptive BMW Laserlight illuminates a range of up to 550 m, nearly twice as far as that of conventional headlights. Better visibility in the dark significantly increases safety. Blue accents and the lettering "BMW Laser" in the headlight also underline the technological standards and the sportiness of the vehicle.

■ 19"/20" M forged wheels Double-spoke style 826 M Bicolour Black with mixed tyres, Translucent Shadow, wheel size front 9.5J x 19 with 275/35 R19 tyres, wheel size rear 10.5J x 20 with 285/30 R20 tyres.

■ Thanks to the use of special material mix, M Compound brakes with brake calipers in Blue high-gloss achieve outstanding deceleration values and are extremely stable.

¹ Depending on conditions and usage, features specific to the materials used can lead to operational noises, particularly in wet conditions, just before the vehicle comes to a halt.

*The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at www.bmw.com or at your BMW Partner.

BMW INDIVIDUAL.

THE EXPRESSION OF PERSONALITY.

Applied with the highest level of craftsmanship, the exclusive BMW Individual Matt paint finishes stand out from the crowd with their silky shimmer. Special pigmentation within the multi-coat painting process allows each line, each surface to develop its highest expressive power - as for example in the BMW Individual paint finish Frozen Brilliant White metallic.

BMW Individual full leather trim 'Merino' VBTQ Tartufo with partial perforation

BMW Individual interior trim finishers piano finish Black with highlight trim finisher Pearl Chrome

BMW Individual full leather trim 'Merino' ZBFV Fjord Blue/Black with partial perforation

M interior trim finishers 'Carbon Fibre' with highlight trim finisher Pearl Chrome and carbon-fibre inlay on the steering wheel and shift paddles

BMW Individual full leather trim 'Merino' VBHZ Fiona Red/Black with partial perforation

M interior trim finishers 'Carbon Fibre' with highlight trim finisher Pearl Chrome and carbon-fibre inlay on the steering wheel and shift paddles

If someone decides, then you: BMW Individual offers you every opportunity to design the new BMW M4 Competition with M xDrive to suit your individual wishes, leaving the degree of customisation entirely up to you. Add your personal driving experience to the typical BMW driving pleasure. Choose what suits you the most from particularly high-quality equipment options: Exclusive BMW Individual paintwork that

show style and confidence. Soft, voluminous leather trims and interior trim finishers made of fine woods, which turn the interior into your personal comfort zone. Or go your very own way, only following your ideas – BMW Individual ensures that they will become an automotive reality.

ADDITIONAL EQUIPMENT.

■ Standard equipment □ Optional equipment

□ The BMW Individual Composition gives the vehicle a particularly elegant and unique character. The BMW Individual paintwork contributes to this, as do the BMW Individual interior trim finishes and the BMW Individual full leather trim 'Merino'.

□ The M Carbon exterior package underlines the athletic demands of the vehicle. Spoiler elements in the front bumper and exterior mirror caps are made of carbon-fibre reinforced plastic (CFRP). The package is rounded off by a striking carbon-fibre diffuser insert at the rear.

□ The M lights Shadow Line include a black finish of all chrome elements in the headlights, creating an unmistakable design.

■ The M high-gloss Shadow Line with extended contents* includes specific equipment features in Black: Exterior mirror caps in Black high-gloss and tailpipe trims in Black Chrome.

□ The air conduction elements in the bumper, which are made of carbon, make the vehicle's motorsport DNA shine even brighter. This lightweight element forms two distinctive channels for the cooling air and creates an expressive accent in the front apron.

□ Aerodynamically optimised M exterior mirrors reduce the drag of the new BMW M4 Coupé. The mirror caps made of visible carbon bring this constructive fine-tuning into focus visually as well.

■ The M high-gloss Shadow Line includes numerous equipment features in Black high-gloss. These include the window cavity seals including the softtop finishers, the exterior mirror frame and the mirror triangle and blade.

□ The M headliner in anthracite lends the sporty ambience even more exclusivity and an exceptional feel.

□ The M Carbon rear spoiler* enhances the visual dynamics of the rear. As an exclusive and concise accent, it makes the adrenaline-charged racing DNA of the new BMW M4 Coupé visible at first glance.

□ The high-quality rear diffuser made of carbon emphasises the vehicle's high-tech nature and adds an even sportier note. It is made of the lightweight material carbon, which has been elaborately handcrafted and has its origins in motorsport. The striking design with its pronounced struts embodies maximum performance.

*The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at www.bmw.com or at your BMW Partner.

■ Standard equipment □ Optional equipment

□ 19"/20" M forged wheels Double-spoke style 826 M Black with mixed tyres and track tyres, wheel size front 9.5J x 19 with 275/35 R19 tyres, wheel size rear 10.5J x 20 with 285/30 R20 tyres.^{1,2}

■ 19"/20" M forged wheels Double-spoke style 826 M Bicolour Black with mixed tyres, Translucent Shadow, wheel size front 9.5J x 19 with 275/35 R19 tyres, wheel size rear 10.5J x 20 with 285/30 R20 tyres.³

□ 19"/20" M forged wheels Double-spoke style 825 M Bicolour Black with mixed tyres, gloss-lathed/gloss-milled, wheel size front 9.5J x 19 with 275/35 R19 tyres, wheel size rear 10.5J x 20 with 285/30 R20 tyres.

□ 19"/20" M forged wheels Double-spoke style 825 M Bicolour Orbit Grey matt with mixed tyres, gloss-lathed rim/rim flange, wheel size front 9.5J x 19 with 275/35 R19 tyres, wheel size rear 10.5J x 20 with 285/30 R20 tyres.

■ As part of BMW's intelligent lightweight construction, the carbon roof⁴ made of carbon fibre reinforced plastic (CFRP) helps to reduce the car's mass, and shifts the car's centre of gravity lower. This leads to an increase in agility and dynamics when taking a bend, accelerating and braking.

■ Thanks to the use of various materials, M Compound brakes achieve outstanding deceleration values, are extremely stable and weigh less. The brake calipers in Blue high-gloss with M lettering lend this high-performance brake system a distinctly sporty appearance.

□ The glass sunroof with slide and lift function, including an electric sliding interior roof, anti-trap protection, as well as comfort opening and closing, allows the airflow to be individually regulated to create a pleasant interior climate. The integrated wind deflector prevents draughts from developing in the interior and ensures a lower level of wind noise.

■ In laser high-beam mode, the Adaptive BMW Laserlight illuminates a range of up to 550 m, nearly twice as far as that of conventional headlights. Better visibility in the dark significantly increases safety. Blue accents and the lettering "BMW Laser" in the headlight also underline the technological standards and the sportiness of the vehicle.

■ The interior mirror and driver-side exterior mirror feature the automatic anti-dazzle function. Additionally, the front passenger exterior mirror features the automatic parking function when the vehicle is put in reverse. Both exterior mirrors are equipped with an electric fold-in function, as well as a mirror memory function. That makes parking easier and helps to avoid damage to the vehicle.

¹ Also available without track tyres.

² The driving dynamics properties of the track tyres vary depending on weather influences and road surface.

³ Also available with track tyres.

⁴ The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at www.bmw.com or at your BMW Partner.

ADDITIONAL EQUIPMENT.

■ Standard equipment □ Optional equipment

■ The multi-adjustable M Sport seats with bucket seat character and partly integrated headrest provide excellent lateral support for you and your front passenger. In addition, the backrest width can be individually adjusted. Their special design with illuminated M4 logo highlights the vehicle's athletic capabilities.

■ The M leather steering wheel with its contoured thumb rests provides a direct, athletic steering experience and maximum control. The integrated multifunction enables the operation of various multimedia and assistance systems. The red M1/M2 buttons can be used to access two preset M Drive configurations.

■ The BMW Live Cockpit Professional with navigation function includes two high-quality displays consisting of a high-resolution 10.25" Control Display that can be operated by touch and a fully digital 12.3" instrument display. The BMW Operating System 7 can also be operated via the iDrive Touch Controller.

■ The M seat belts boast an exquisite woven highlight in the classic M colours and emphasise the extremely high-quality and sporty ambience in the interior.

□ The M Carbon bucket seat with illuminated M4 logo combines the lightness and racing character of a bucket seat with the range of functions of an M Sport seat. Its contouring offers perfect side support and excellent long distance comfort. It is compatible with multipoint harnesses and therefore fully suitable for racing.

□ Driving Assistant Professional offers optimum comfort and safety during critical or monotonous traffic situations. Apart from the contents of the Driving Assistant, it also includes Steering and Lane Control Assistant with extended functions, Emergency Stop Assistant and Lane Keeping Assistant with active side collision protection.¹

□ The M Setup allows you to configure various driving dynamics parameters such as engine, transmission and steering characteristics, damper settings, Dynamic Stability Control (DSC) control intensity or the power distribution of the M xDrive all-wheel-drive system according to your personal requirements.

■ The full-colour BMW Head-Up Display with M specific functions projects information relevant for the journey directly into your field of vision. With the press of a button, you can switch to the M specific display, which includes a gear indicator, the rpm as a dynamic range curve with shift lights indicating the optimal moment to shift as well as navigation tips.²

□ Whether track day or spontaneous drift session – M Drive Professional is the perfect companion for trips with that extra portion of adrenaline. The M Laptimer and the M Drift Analyser help you to hunt for best times and the perfect drift angle, while the M TRACK Mode and the ten-step M Traction Control allow for tailor-made drivability.

¹ Function may be limited in darkness, fog or bright glare.

² The information in the BMW Head-Up Display is not fully visible when viewed through polarised sunglasses. Content shown will depend on the equipment options chosen. Further optional equipment is required to display specific items.

*The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at www.bmw.com or at your BMW Partner.

ADDITIONAL EQUIPMENT.

■ Standard equipment □ Optional equipment

■ The tonally outstanding Harman Kardon surround sound system features a 408 W digital amplifier, nine channels and 12 speakers. Its sophisticated sound perfectly fills the interior space. Vehicle-specific, speed-dependent equalising precisely compensates for any background driving noise.

■ Telephony with wireless charging¹ incorporates a wireless charging dock and a second microphone for a better hands-free voice quality for you and your front passenger. An additional aerial connection improves mobile reception. Two mobile telephones and an audio player can be connected simultaneously via Bluetooth. Also included is the technical capacity for a Wi-Fi hotspot.^{1,2}

■ The Automatic air conditioning with 3-zone control and automatic temperature control features separate controls for you and your front passenger, as well as for the passengers in the rear. It also includes Automatic Air Recirculation (AAR), a micro active carbon filter, a fog and solar sensor, as well as rear air vents with a digital display.

□ The dynamically designed high-quality BMW Display Key with M logo shows various status data of the vehicle on the integrated touch display and allows even the operation of selected functions.

■ The through-loading system includes rear seat backrests that can be divided in a 40:20:40 ratio for the greatest possible flexibility. For example, two passengers can be seated comfortably in the rear, while long objects such as ski and snowboard bags can be transported at the same time. The two cupholders in the centre armrest are very practical.

■ Ambient light, including Ambient contour lighting in the front and rear doors, creates a relaxed, cosy lighting atmosphere in the interior. The eleven dimmable lighting designs also include a dynamic function in four applications.

□ In warm weather, the active seat ventilation in the front seats provides more seating comfort. Fans in the backrests and fans in the seats blow interior air at a selectable intensity through the finely perforated seat covers and ensure a comfortable seat temperature for you and your front passenger.³

¹ Supports inductive charging for Qi-compatible mobile phones. Special charging cases are available from Original BMW Accessories for selected smartphones that do not support the Qi standard for inductive charging.

² The WiFi hotspot fulfils all in-vehicle requirements for use of the internet with the maximum LTE standard. Usage is subject to cost.

³ Not in conjunction with M Carbon bucket seat.

The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at www.bmw.com or at your BMW Partner.

Please note that even normal long- or short-term use can lead to unrecoverable upholstery damage. This can be caused in particular by non-colourfast clothing. Please note that the interior colour depends on the selected upholstery colour.

¹ Also includes steering wheel trims and – BMW M4 Competition – gearshift paddles in carbon fibre.

² Not in conjunction with M Carbon bucket seats.

³ Available with Individual composition package only.

*The availability of some equipment features and functions depends on engine variants or additional options. The market and production availability may vary. You can find detailed information about terms, standard and optional equipment at www.bmw.com or at your BMW Partner.

The BMW M4 bring high-performance sport to the road. Numerous technologies derived from motorsport offer maximum performance and dynamics in perfection - in every driving situation. The breathtaking motorsport feeling is rounded off by the exclusive, tailor-made BMW M Performance Parts in unique carbon look. The interplay creates a vehicle that releases adrenaline at every moment and draws all attention to itself. Give your BMW maximum individuality and genuine racing character with BMW M Performance Parts, with a wide range of products available in the areas of aerodynamics, drive, exterior design, cockpit, chassis, and wheels.

o 19"/20" M Performance forged wheels Y-spoke style 963 M for vehicles with central locking in Jet Black matt. Summer complete wheel set with tyre pressure monitor.

o 20"/21" M Performance Forged Wheels Cross-spoke style 1000 M in Gold Bronze. Complete summer wheel set with tyres featuring tyre pressure monitor.

o Perfectly well-rounded, with stunning corners and angles: the M Performance steering wheel Pro creates an unmistakable motorsport atmosphere in the cockpit. It inspires with its striking form and very pronounced grip area made of Alcantara – for a more direct steering feel. With a motorsport mark in light blue leather.

o Make a strong statement: The M Performance front splitter made from 100 percent carbon fibre highlights the vehicle's masculine appearance in a highly exclusive manner. A unique motorsport look for anybody who refuses to compromise.

o Power up an already impressive appearance: The exclusive M Performance motorsport foiling in the M colours further accentuates the sporty character of the vehicle and makes a clear reference to racing. The high-quality foil set is car-wash proof and optimally matched to the vehicle geometry.

o Athletic on the one hand. Individual on the other. The M Performance Air Breather decorative slat is made of premium carbon fibre. An elegant visual highlight on the side of the car. Featuring the BMW M4 logo.

o The M Performance rear spoiler with aerodynamic cut-out is made from 100 percent high-quality carbon fibre and creates a distinctive motorsport look at the rear of the vehicle.

M4 Competition M xDrive

All dimensions in the technical drawing are given in millimetres.
The figures for performance, fuel consumption and CO₂ emissions refer to vehicles with standard transmission.

¹ The EC unladen weight refers to a vehicle with standard equipment and does not include any optional extras. The unladen weight includes a 90% full tank and a driver weight of 75 kg. Optional equipment may affect the weight of the vehicle, the payload and the top speed if the selected equipment has an impact on the vehicle's aerodynamics.

² Performance data of petrol engines apply to vehicles using RON 98 fuel. Fuel consumption data apply to vehicles using reference fuels in accordance with EU Regulation 2007/715. Unleaded RON 91 and higher with a maximum ethanol content of 10% (E10) may also be used. BMW recommends RON 98 super plus unleaded petrol.

³ The data for fuel consumption, CO₂ emissions and energy consumption are determined in accordance with the measurements processes as defined by European Regulation (EU) 2007/715 in the applicable version. Data refer to a vehicle with base-level equipment in Germany, and the ranges account for differences according to the selected wheel and tyre size and the optional equipment and may change during the configuration process. Figures have been determined on the basis of the new WLTP test cycle and have been converted back into NEDC figures for comparability. [For these vehicles, values other than those specified here may apply for the assessment of taxes and other vehicle-related charges that are [also] based on CO₂ emissions.]

⁴ Electronically limited.

⁵ The raised top speed is only available after the first service following the 2,000 km run-in period.
